I am currently a second year graduate student at Ball State University pursuing a degree in public relations with a business concentration. For this, you can make use of Cause-and-Effect diagrams and Pareto Chart tool. The goals are pre-set business objectives, company missions and its vision. Tacit knowledge is often used to fill the gaps in complex decision making process. Berlin; New York: Springer. Although these steps are relatively ordinary, judgements are often distorted by cognitive and motivational biases, include "sins of commission", "sins of omission", and "sins of imprecision". When it comes to making decisions, one should always weigh the positive and negative aspects. For example, in the case of the mother who has last-minute babysitting issues, if all of the choices she can brainstorm include leaving the children with family members, asking a neighbor to watch them, or staying home herself, the first two options might seem salient. Though I am extremely excited about my assistantship, course Decision Making Process, and professors, on the same coin, I am also excited to be near completion and closer to pursuing a career.
